Euroring | Örkény

AUDI SUSTAINABILITY SPECIAL AWARD

Winner: HAWKS Racing e.V.

Car Number: 69

COMMENTS:

This year the teams had a single Real Case task that required their understanding of their own car, the manufacturing processes, the costs, and of course the environmental impact in the form of recyclability. All teams have raised good points and have shown to have a good knowledge of this issue. However, only one team can receive the Special Award, one which has considered this aspect the most, explored it in great detail and came up with a unique answer.

The award is going to HAWKS Racing, who performed the best in the sustainability topic in the Real Case scenario of the Cost, Manufacturing and Sustainability event.

THE BOARD OF FORMULA STUDENT EAST:

- | Alexander DUDÁS
- | Gergely LÁGLER
- | Tamás CSÜTÖRTÖKI
